

MAKE YOUR OWN SWORD of PROTECTION

YOU WILL NEED:

Cardboard

Colored cardstock

Pencil

Scissors

Double stick tape

Glue

3-D puff paint

Glitter

Markers

Instructions:

1

Cut out all template pieces and arrange them on **cardboard** sheets. Trace around the edges of the templates onto the cardboard. Cut out each sword piece and set aside.

2

Print directly onto colored **cardstock** sheets. You may instead trace the shapes onto white cardstock and color in your shapes. Cut out each sword piece and set aside.

3

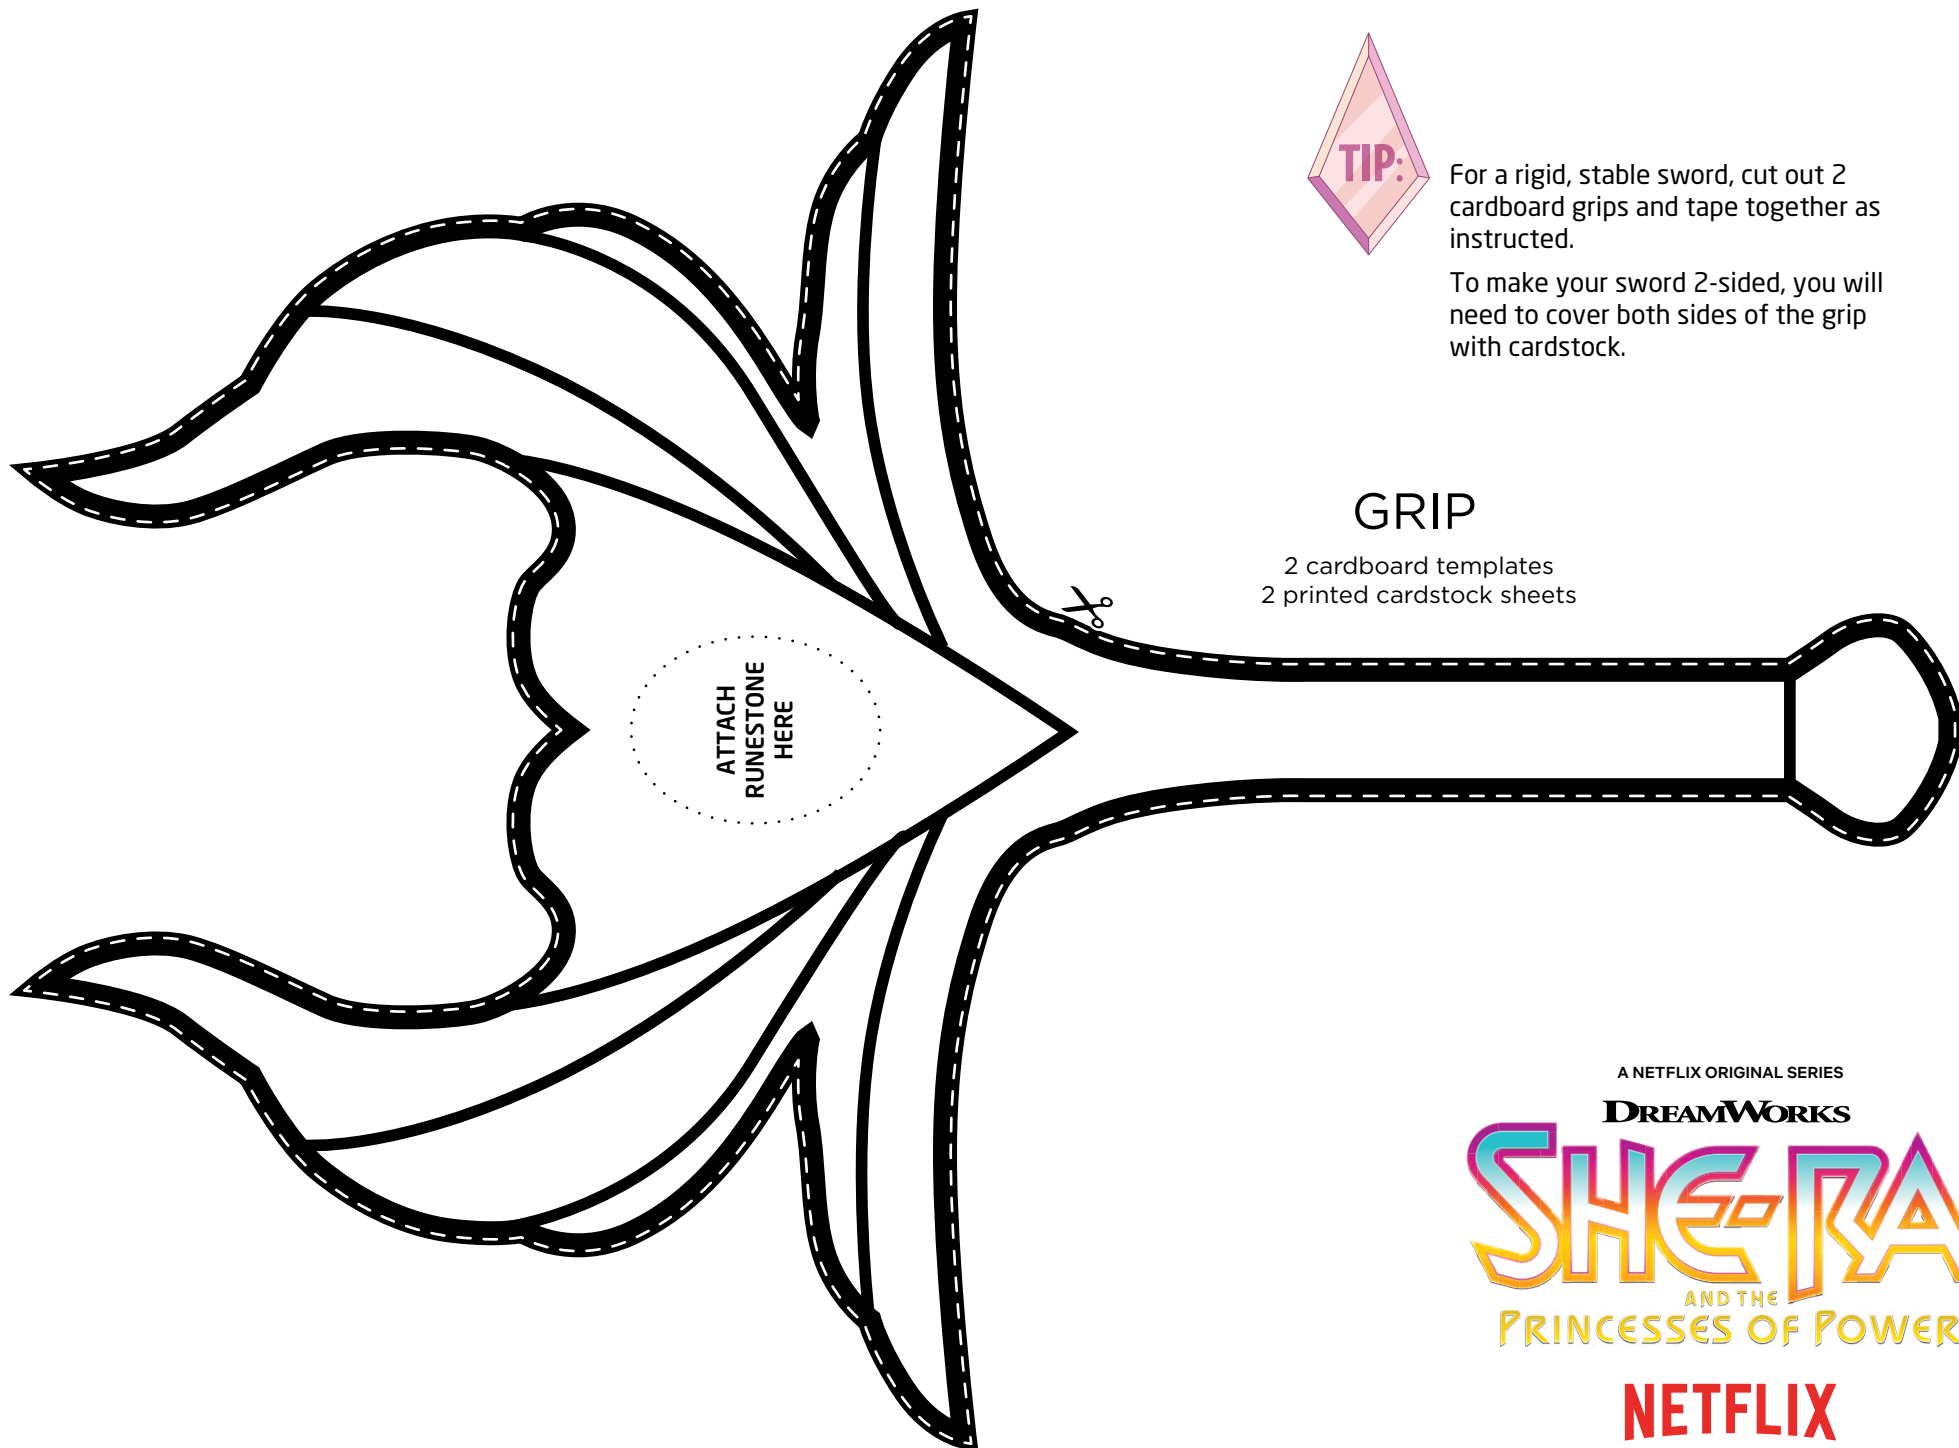

Apply glue to the back of each cardstock piece, and stick to the front of each matching cardboard piece. Match grip to grip and blade to each blade.

4

Repeat step 3 to cover the reverse side of your sword.

TIP:

Add extra flair and power to your sword with 3-D puff paint, glitter and markers!

For a rigid, stable sword, cut out 2 cardboard grips and tape together as instructed.

To make your sword 2-sided, you will need to cover both sides of the grip with cardstock.
