

HOW TO MAKE YOUR OWN Friendship Bracelets

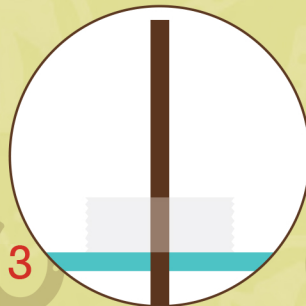

One bracelet is for you. The other is for your best friend!

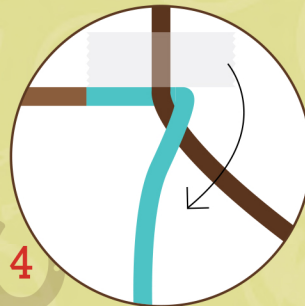

Gather all of your items and separate them into two sets. For each bracelet, you will have one long cord, one short cord, and one horseshoe charm.

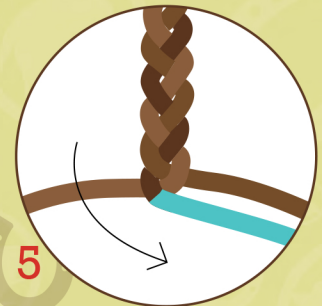

Mark 6 inch point of long cord and tape to work surface.

Place center of short cord behind mark of long cord.

Begin braiding with right strand over middle strand, then left over middle.

Continue, keeping your braid tight until you have about 6 inches of braid.

Thread cord ends through charm loop. Position charm at middle of braid.

Tie a square knot at the end of your braid.

Complete square knot and firmly tighten.

Bring ends together to make a fisherman's knot at both ends of braid.

Trim all excess cords at base of knots. Slide the knots toward or away from one another to fit your wrist.

Items you will need for 2 bracelets:

- ≈ Two 24-inch, 1mm leather cords
- ≈ Two 20-inch, 1mm leather cords
- ≈ Two horseshoe charms
- ≈ Scissors
- ≈ Tape
