

## HOW TO MAKE YOUR OWN Friendship Frame

Begin by painting all edges of your wooden **picture frame** with a base coat of **white paint** using a **paint brush**. Dilute the paint with a little water to get a whitewashed farmhouse effect.

After the white paint is completely dry, add decorative elements with **peach paint**. Create flourishes, flowers or any shapes you like. Allow your designs to dry completely.

Use your **puff paint** to write your name and/or your friend's name. Let your creativity run wild and free by drawing other shapes and symbols around the frame. Lay frame flat to dry for 3 hours.

After all paint is dry, reinsert the plastic protector (if yours came with one), add your **favorite picture**, and proudly display it on your desk, dresser, or shelf!

### Items you will need:

- Picture frame (unfinished wood)
- Paint (white, peach)
- Puff paint (turquoise)
- Paint brush
- Photo of you, your family, friends or pets
